

# Recycling in Bermuda

## What can you recycle in Bermuda?

Bermuda currently recycles  
ONLY glass, aluminum, and tin.

## What about plastics and paper?

Unfortunately Bermuda does not have the facilities or infrastructure to recycle paper and plastic in a way that is efficient and cost effective. However, that does not mean we can't REDUCE and REUSE as a means of being more eco-friendly!

## REDUCE and REUSE for a Greener Bermuda!

- Buy used. You can find everything from clothes to building materials at specialized reuse centers and consignment shops.
- Look for products that use less packaging. Buying in bulk, for example, can reduce packaging and save money.
- Buy reusable over disposable items. For example, you can bring your own silverware and refillable water bottle to work, rather than using disposable items.
- Maintain and repair products, like clothing, tires and appliances, so that they won't have to be thrown out and replaced as frequently.
- Borrow, rent or share items that are used infrequently, like party decorations, tools or furniture.
